Urgent Care Services

What is urgent care? This is care for an illness or injury (i.e. sprained ankle, runny nose, sore throat) that is medically necessary for treatment within 24 hours. This is not for conditions that will result in loss of life or disability if not treated immediately.

Benefits of urgent care centers: Urgent care centers are quicker and much less expensive.

Obtaining care at a urgent care center: Contact your doctor before seeking care. If unable to reach your doctor or if you are out of your residential area, contact 1-877-TRICARE for assistance.
